For your successful future

## We are your partner

According to the vision as "leading counterpart for more added value in dental technology", we have laid a cornerstone, which directs actions in our company.

**Best quality** and a **fair price-performance ratio** combined with **transparency** and **simplicity** are our corporate principles. These values shape our strengths and create your success.

In our day-to-day cooperation, we concentrate on the fundamental issues that make an essential contribution to long-term value creation - economically and ecologically.

All of these trend-setting guidelines have a clear course:  
to support you in the dental cosmos as a **long-term and reliable partner**.

In the following, planets describe the properties of our materials.  
Infinite widths ... like the possible uses of our metals.

## Cobalt-chrome dental alloy

# CADtools Cobalt-chrome

The dental technician can cover all indications with cobalt-chrome - the all-rounder among the materials.

**The Earth - the blue planet. The color blue was obtained from cobalt-aluminum oxide at the beginning of the 19th century.**
