

Quality assurance agreement between CADdent GmbH and its customers

CADdent GmbH supplies its customers with intermediate products for custom-made dental devices.

CADdent GmbH undertakes:

- to use only properly CE marked materials
- to ensure the traceability of the lot numbers for the materials used
- to provide details of the names and manufacturers of the materials used and their lot numbers for each intermediate product manufactured
- to manufacture all intermediate products with the greatest care in accordance with the specification supplied and to send them only after an appropriate inspection
- to notify the customer of any change affecting the manufactured products (e.g. materials, manufacturing processes)
- to ensure data protection for any information provided
- to inform the laboratory immediately in the event of recalls or incidents
- to apply a QM system
